

# ASCO™ Solenoid Valves

proportional direct operated for vapour recovery regulating applications, 1/4

2/2  
SERIES  
291

## Features

- The proportional solenoid valves can handle a variable flow of fuel vapour, proportional to the control signal
- The high quality ETFE disc core construction guarantees a long operating life and a wide temperature range
- Explosion proof operator, intended for use in potentially explosive areas, according to Directive ATEX 2014/34/EU
- Easy electrical installation by means of the moulded-in supply cable, standard length of 3 meter
- ASCO™ components satisfy all relevant EC directives

## General

Differential pressure 0 - 1 bar [1 bar = 100kPa]  
Ambient temperature range -40 to +65°C

fluids (*)	temperature range (TS)	seal materials (*)
Fuel vapour	-40 to +65°C	FPM (fluoroelastomer)/ ETFE (ethylene tetrafluoroethylene)

## Materials in contact with fluid

(\*) Ensure that the compatibility of the fluids in contact with the materials is verified

Body	Brass
Core tube	Stainless steel
Core and plugnut	Stainless steel
Core disc seal	ETFE
Rider ring	PTFE
Springs	Stainless steel
Lip seal	PTFE
Seat	Brass
Breaker piece	Stainless steel

## Electrical Characteristics

Coil insulation class F  
Electrical safety IEC 335  
Standard voltages DC (=) 24V - 48V

- Not available

Installation

- The valves can be mounted in any position without affecting operation.
- Pipe connection identifiers: G = pipe thread according to ISO 228/1
- Installation/maintenance instructions are included with each valve.
- PV solenoids have a standard cable length of 3 meters. Other lengths in full meters are available on request
